

Sweet
Tooth

The lush, the sinful, the delicious and delightful, and the biting aromatic, is what *Sweet Tooth* seeks to invoke. Empty calories, as only the western world can conceive, are to be rejoiced and savoured: that taste on the tongue, the smile upon the lips, the pleasure of abundance, so often a pleasure denied.

This exhibition asks you to stop and pause ... take a breath.....be personally prepared to "push the boat out".....and celebrate your sweet tooth. All may not be good in the world, but we will always have cause to celebrate.

Lush

Layer Cakes (Detail), Stoneware Ceramics, 2008

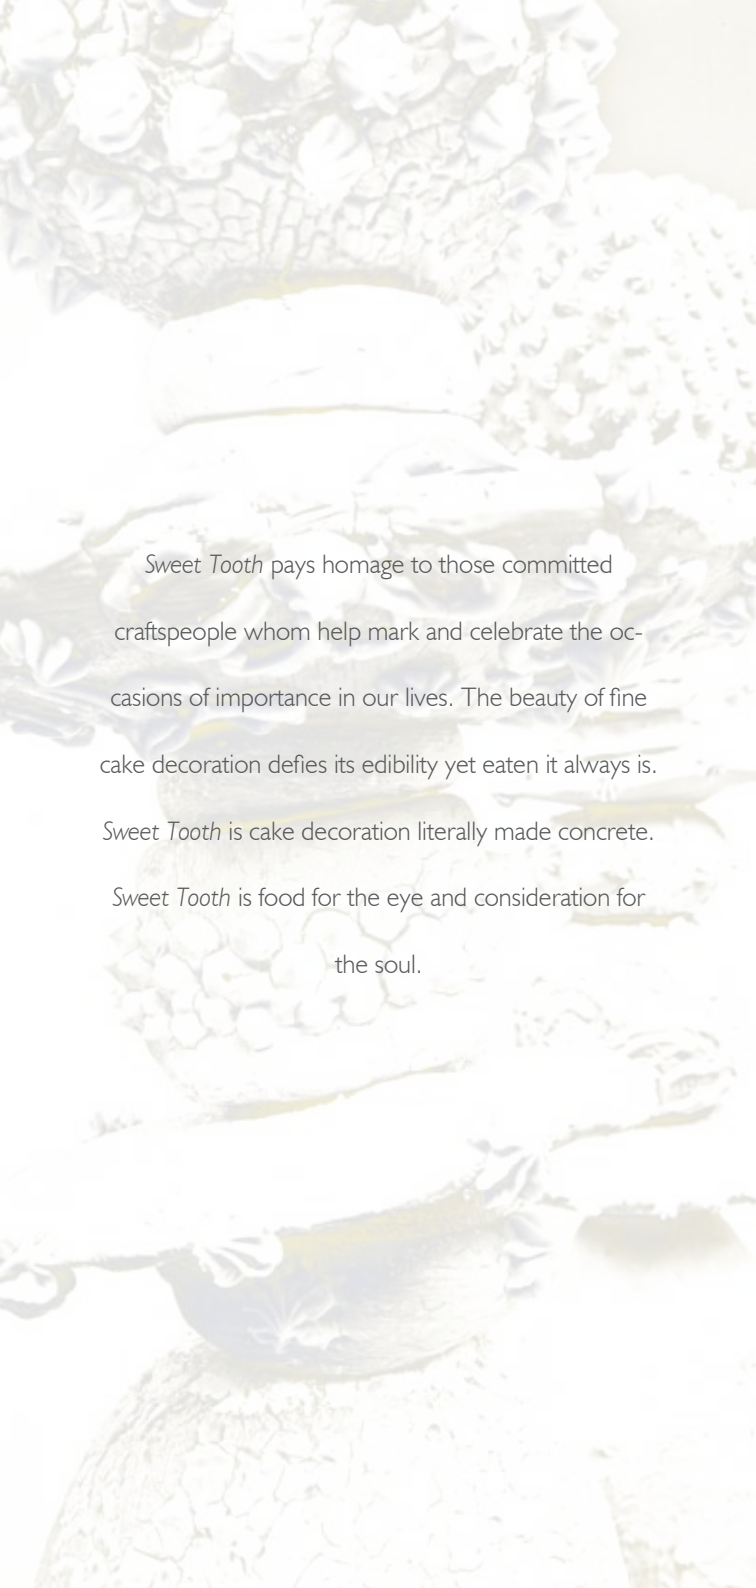

Sweet Tooth is a ceramic sculptural exhibition which plays with the idea of cake, icing, edibility and cultural significance, consumption, abundance and delight.

My oven is a kiln, I mix, I bake and I celebrate, my ingredients and temperatures differ, nevertheless I aim for the same crunch. I use mud and hay baked to 1200°C to create, larger than life, the love and labours of all our cooks.

Delicious

Layer Cakes (Detail), Stoneware Ceramics, 2008

Sweet Tooth pays homage to those committed
craftspeople whom help mark and celebrate the oc-
casions of importance in our lives. The beauty of fine
cake decoration defies its edibility yet eaten it always is.
Sweet Tooth is cake decoration literally made concrete.
Sweet Tooth is food for the eye and consideration for
the soul.

Sinful
